Wheel Lift Device

دستگاه بالابر چرخ

A vertical legend consisting of three colored squares: blue at the top, red in the middle, and yellow at the bottom.

Wheel Lift Device

A wheel lift device, also known as a wheel lifter, provides the capability to easily lift and transport large wheels, such as those of trucks, buses, and minibusses. This wheel lift device is lightweight and can be effortlessly moved on four wheels, making it suitable for various working spaces due to its compact dimensions.

Specifications:

- Overall dimensions: Length ۹۰۰ mm, Width ۹۰۰ mm, Height ۱۰۰۰ mm
- Lift arm diameter: ۶۰ mm
- Center to center of lift arms: ۷۰۰ mm
- Maximum lifting height: ۳۷۰ mm
